PROFILE

I graduated in Chemistry, but now I'm diving into full-stack development. I'm eager to work with a team, solve problems, and learn the least in technology. Every day, I am motivated to improve and grow in my skills.

EDUCATION

BSc in Chemistry
Bhavan's College
06/2020 - 09/2024, Mumbai, India

PROJECTS

Hospital Management System — 01/2024 - 02/2024

- Developed a comprehensive Hospital Management System website enabling users to book appointments, view hospital and doctor information.
- Implemented multiple user roles including patient, doctor, and admin logins.
- Streamlined doctor-patient interaction with appointment scheduling and management features.

Bus Booking System — 10/2023 - 11/2023

- The Bus Booking System is an online platform designed to streamline the process of booking bus tickets for passengers.
- This system provides a user-friendly interface for passengers to easily search for available buses, select their preferred seats.
- Additionally, it offers administrative functionalities for bus operators to manage bus schedules, assign seats, and monitor bookings.

Website — 09/2023 - 10/2023

- Develop a user-friendly website using HTML, CSS, and JavaScript.
- Clear course presentation, faculty profiles, and online enrollment form.
- Establish an online food ordering website page.
- Utilized responsive design principles to ensure the website's functionality.
